

LISTEN

TONI SCORSESE

Hey Colleague
I often tell my students to trust themselves

I explain
When I answer questions and get the correct response
I have a physiological reaction

For me it's in the chest
Some feel it in the head;
their third eye

I remind them to trust that feeling

We are about to collaborate
I wanted to remind myself and you...

It's time to listen to that voice

Ready to get to work on this?
