

PUZZLED

TONI SCORSESE

Most folks work from the corners; some from the borders.
Others approach from the center, straight to the heart of the scape.

Oodles of fragments belong to this jigsaw.
How many can be truant before the picture emerges unclear?

When two crack the mosaic together, it matters not from where they begin.
Nor should it matter whether all the chips are on deck.

Though, incongruence ensues when cobbled independently.
And detangling the awkward jumble becomes emergent.

Yes, the task can delay a bit, left unfinished on the table.
But eventually the pieces simply have to fit.

Pity if not.
